

Order Entry & Invoicing

Johnstone Supply Data Services, LLC
DSPro Software Training

Order Entry & Invoicing

▶ Purpose

- ? Menu 1, Order Entry and Invoicing
- ? This process combines all possible Order Entry functions into one comprehensive utility to:
 - Create orders, credit memos, dropships and quotes
 - Release, maintain and cancel backorders
 - Unfinalize, maintain and cancel releases
 - Convert quotes into orders.

Order Entry & Invoicing

- ▶ Although somewhat complex, Order Entry/Invoicing is very versatile
- ▶ with special features:
 - ? Order and invoice numbers assigned at the end of the order entry (OE) process.
 - ? Quick access to product data with Line Detail screen
 - ? Multiple warehouse shipping within a single order
 - ? Complete audit trail in both order and release files.
 - ? Parameter-driven display and function options.
 - ? Continuous on-screen order information
 - ? Easy dropships
 - ? Automatic credit checks
 - ? Product entry of non-stock or special items
 - ? Special Dashboard future.
 - ? Help windows and option lists are available with a '?'.

Order Entry & Invoicing

The Purpose of the Line Input Screen:

- ▶ To enter product quantities and messages into the order
- ▶ To check stock and pricing on a product
- ▶ Line Input maintains automatic pricing based on customer discounts, programs and contract pricing.

Order Entry & Invoicing

The Line Input screen actually has two screens:

- ▶ Line Entry Screen
- ▶ Detail Maintenance Screen

Order Entry & Invoicing – Line Detail

At the Line
Input screen

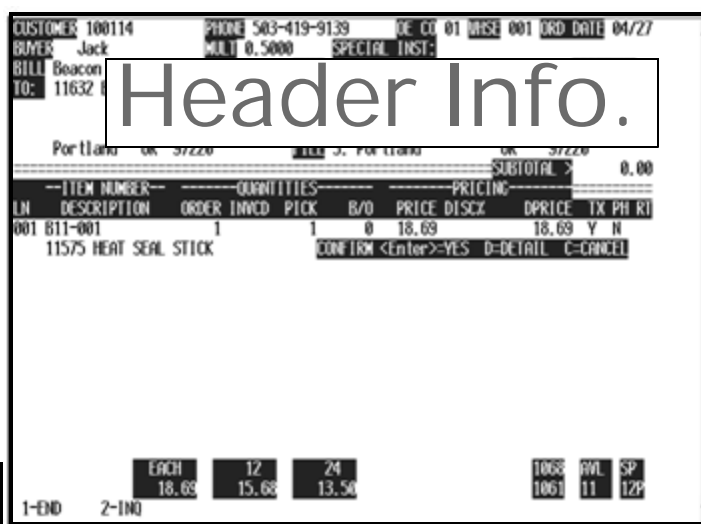

Input the item
number and the
quantity to order

The product is
automatically priced

Enter <CR> to accept
the line and move to
the next line

Enter 'D' to access the
Detail Maintenance
Screen

Enter 'C' to Cancel Line

Order Entry & Invoicing – Detail Maintenance

Line Detail Maintenance Fields

1. **Product #** - Displays the current product number. Enter a new product number on Line #1 and all fields on the screen will change accordingly.
2. **Description** - Displays the current product description. You can type a new description to print on the order and invoice forms.
3. **Order Qty** - Number of items ordered. To change the quantity ordered, enter a new amount. Pick and backorder quantities will be recalculated depending on product availability.
4. **Pick Qty** - This is the number of products currently reserved for this order.
5. **BO Qty** - Backorder Quantity, the amount of stock that is 'backordered'. The quantity ordered is more than what is currently

Order Entry & Invoicing – Detail Maintenance

Line Detail Maintenance Fields

6. **Whse** - Warehouse, this field is based on the company number entered in the previous screen. You can change the warehouse and pick stock available in other locations.

Be aware, that an order will be split if products have different warehouse numbers.

When you alter this field, you will be prompted to select one of three options,

- Transfer
- Ship to

Order Entry & Invoicing – Detail Maintenance

Line Detail Maintenance Fields

6. Whse - Continued

- **Transfer** – The product is added to a running transfer purchase order for the selected warehouse, and the product remains on backorder for the current customer order.
- **Ship to** – Separate Pick/Pack orders are created for each specified warehouse after the Total screen has been accepted. This is similar to the Split Credit Memo option in which two documents print. The specified warehouse receives credit for the sale of this line, as though it had been entered at that warehouse.
- **Dropship** – The line is flagged as a dropship when a Pick ticket is created at the selected warehouse with the selling store as the bill-to and the customer as the ship-to. Credit for the sale remains at the

Order Entry & Invoicing – Detail Maintenance

Line Detail Maintenance Fields

- 7. **Reason Code** – Enter a code for a credit situation. Type a '?' (question mark) for a list of reasons codes.
- 8. **Return Ind** – Return indicator used on product returns, input 'R' to return the item to stock, enter 'N' to indicate the item is not to be returned to stock. All warranties will be set to 'N' automatically.
- 9. **Taxable** – Indicates whether or not the line item is taxable. This field is automatically set by the flag in the product file.
- 10. **Price Hold** – Accessed only if the product is sold for too much or too little, based on the parameters set in the Company parameters.
- 11. **Warr Seq** – Warranty Sequence. Enter the tag number for the warranty return. The system will automatically launch the Johnstone Supply

Order Entry & Invoicing – Detail Maintenance

Line Detail Maintenance Fields

- 12. **Price Code** – The code is either "O" or "F" where O defaults if you override the price and F displays if you use the file price already in the system.
- 13. **Price** – Based on customer pricing, contract pricing and program pricing.
- 14. **Disc %** – This is the discount percent applied to the line.
- 15. **Avg. Cost** – This is the Average Cost of an item.
- 16. **Core and 17. Core Cost** – these fields are informational only and should not be maintained.
- 18. **Dropship** – Enter the dropship code, the default for the regular line item is "ND", while "DS" indicates that it is a dropship line.

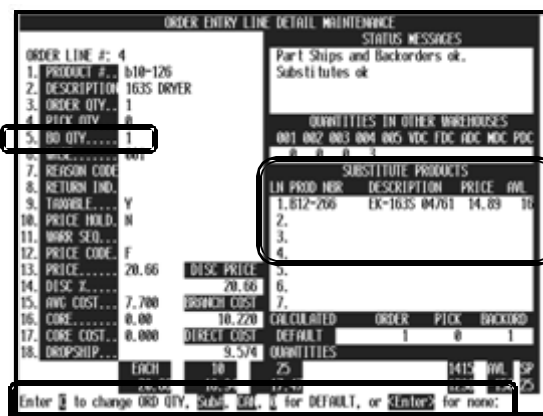

Order Entry & Invoicing – Detail Maintenance

Item on Backorder with Substitutes

If a backorder item has substitutes, a prompt appears

- Enter 'C' for a new order quantity
- Input 'SUB' and return, input the line number for the substitute listed, the product and pricing will automatically change to the substituted item.
- Enter 'CAN' to Cancel the line.
- Press ENTER to leave the order quantity unchanged and to override pick or backorder quantities.

Order Entry & Invoicing – Detail Maintenance

Item with Substitutes

The system will add a message line to the order indicating the part was a substitute.

Order Entry & Invoicing – Detail Maintenance

Status Messages – Displays information regarding the customer, from the Customer Master Record.

If the customer will accept Partial Shipments, Backorders or Substitutes.

Quantities in other Warehouses – Displays the quantities available in other branches as well as quantities available in the distribution centers.

- VDC = Las Vegas Distribution Center
- FDC = Florida Distribution Center
- PDC = Portland Distribution Center
- MDC = Memphis Distribution Center
- ADC = Allentown Distribution Center

Substitute Products – Will list the substitute products and the quantities available.

Calculated Default Quantities – Displays order, in-pick, and backorder quantities.

Order Entry & Invoicing – Detail Maintenance

When you are finished with Line Detail Maintenance, enter one of the following options:

- 'B' - Backout to exit Line Detail Maintenance without accepting any changes. Returns to Line Input.
- 'CAN' to cancel this line
- 'SUB' - Substitutes, to recall the status display screen and any substitute product information.
- 'N' - To display product notes. The product number will blink when there are product notes.
- 'O' to accept the changes and return to the General Entry Line screen.

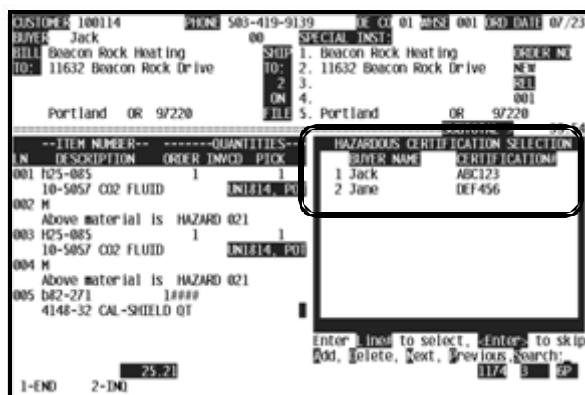

Order Entry & Invoicing – Detail Maintenance

Hazardous Certification Selection

The second screen that may appear at Line Input is based on the item number entered.

If the item is Hazardous, a sub-screen, Hazardous Certification Selection will display.

Order Entry & Invoicing – Line Detail

Message Lines

To add a message line, type "M" at the item number prompt, then, simply type your message.

To view the pre-programmed message lines, type "M" and type a "?". The list will display, select a message from the list.
