powerPAD -Use the PowerPAD for quick order creation and streamlined list management. Valid product numbers are all that is required. For advanced searching using keywords and MFG#'s, please use the powerBOX.

powerPAD Order Creation: The powerPAD allows for bulk order building by typing in multiple products, products and quantities, or by copying and pasting products from a CMI device (See CMI CS1504) or from a spreadsheet.

Scroll down for help with the following;

- Input Products Separated by a Space AND CLICK ADD TO CART
- Input Products on each line AND CLICK ADD TO CART
- Input Products and Corresponding Qtys separated by a space AND CLICK ADD TO CART
- Copy and Paste in scans from CMI CS1504 Device
- Copy and Paste from a spreadsheet
- power PAD List Management

power PAD List Management: The powerPAD allows for streamlined list management by allowing for multiple product entry to new lists or bulk maintenance to existing lists. Enter the products, products and quantities, paste from a CMI device (see CMI CS1504) or paste from a spreadsheet and then select the list to add them to or add to a newly created list.

Selecting an Existing List (update as needed, create new list or add to cart)
